WORK
SPACES.

PHYSICAL SPACES

Physical space is the place where objects are found and where events that occur have a relative position and direction.

SPACES

MEETING
ROADS.

HUMAN SPACES

It is these spaces where human value prints character to the environment. This meeting point is the one that marks the path of this collection.

FUNCTIONAL WORKSTATIONS

The business strategy brings together different areas, so the functional strategy is in charge of balancing the corporate objectives

COLLECTIVE INDEPENDENCE

Corporate objectives focused on the
recognition of departments .
The sum of individualities as a way to achieve
the objectives of the strategy..

PRACTICAL FUNCTIONALITY

The versatility of spaces allows the execution of projects in an agile, practical and functional way.

PERSONALITY & FUNCTIONALITY

The most particular needs require functional solutions with personality that brings character to the environment

PRIVATE OFFICES

INN 26-27

MEETING

INN 30-31

Immediate contact with the object is made through the external senses.

The opinions, debated and agreed are the way that leads us to the understanding of a collective feeling.

COMMON SENSE

A meeting is an act or process by which a group of people come together, as a whole, for a common purpose.

A delimited objective and a planned duration is the best way to achieve the purposes.

COLLABORATIVE AREAS

INN 36-37

ELEGANT POLIVALENCE

The diversity of the spaces and their multifunctionality create optimal environments in search of ambitious results.

COMMON SPACES

INN 40-41

A common identity is enough to form a community without the need for a specific objective. A community is a company, the participation and cooperation of its members enable the conscious choice of directed transformation projects. two to the global solution

This is our way
