PEOPLE & WORK SPACES

CREATING
HARMONY
WITH YOUR
SURROUNDINGS

The workplace is changing.

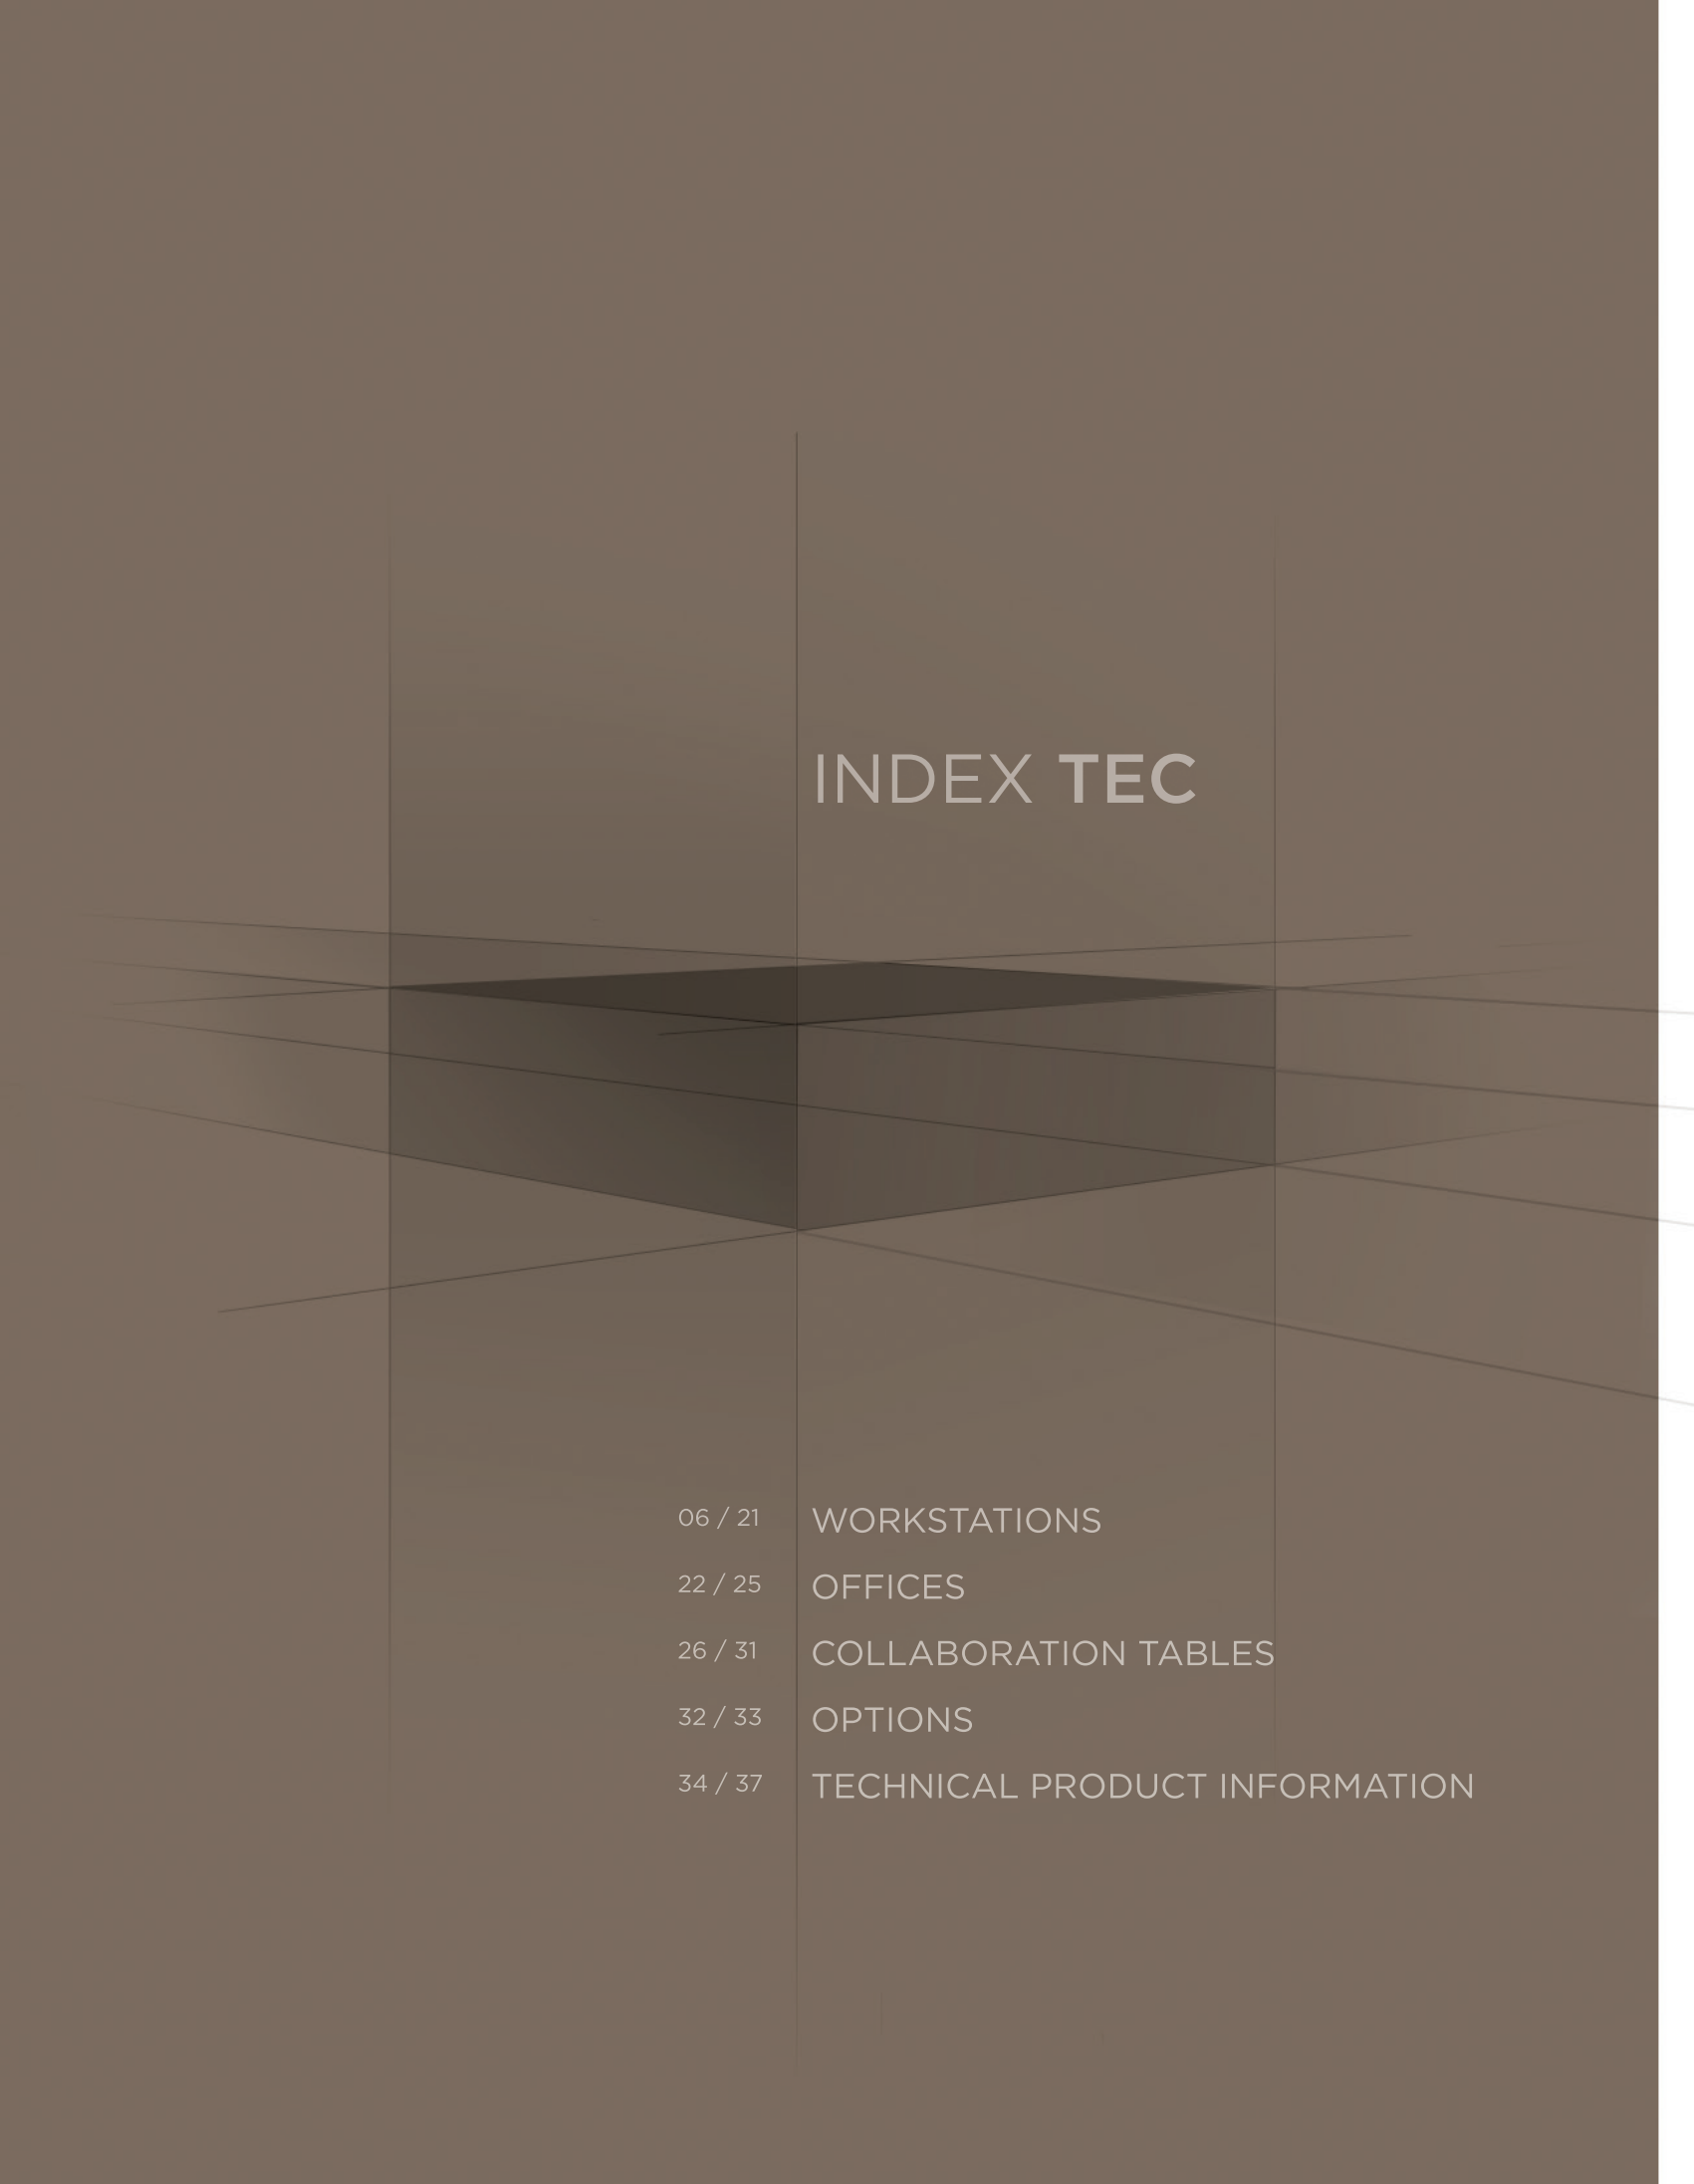

Technology and space must be in harmony to nurture the free flow of ideas between people.

Today's business environment requires workplace solutions that adapt to this open and collaborative process.

tec
WORKSTATIONS

These are the attributes that define TEC. A furniture system that brings together form and function while allowing you to configure the workspace to the specific needs of each individual user.

TEC lets you arrange your workspace the way you want, from individual desks to collaborative groupings that can quickly be reconfigured depending on the nature and flow of the work to be performed.

WORKSTATIONS

TEC Benching Stations and accessories provide unique solutions for individuals or groups based on the varying needs for collaboration or privacy.

THE EVOLVING WORKPLACE
OR THE CONCEPT EVOLVES

Tec Clusters incorporates a steel benching deck with an array of available panels, dividers and accessories which complement the workspace while maximizing productivity.

- Options include:
- Plexiglass front panels
 - Acrylic Side panels
 - Desk Organizer Panels

TEC LINEAR WORKSTATIONS

Tec Linear Workstations provides a fresh new concept for call centers, reception areas, training and meeting areas.

With shared legs, Tec Linear Workstations are versatile, highly functional and easy to install or move.

BENCHING WORKSTATION OR TEAM WORKSTATIONS

Tec Team Workstations allow you to create larger workspace areas for team environments while still adapting to technology and maintaining elegance and simplicity in design.

Center rails can incorporate panels for privacy as well as accommodate a wide range of accessories.

Worksurfaces are also available with the option for shared power as well as hinged covers or grommets to hide wires and maintain a clean and uncluttered look.

OFFICES

Tec Simplicity can meet all of your workplace needs. Choose surfaces with extended returns, modesty panels, under desk storage, credenzas and more. Manage device wires and technology with cord channels concealed in support legs.

COLLABORATION TABLES

Tec offers a wide variety of solutions ranging from individual tables in a variety of sizes and designs, to large configurable desking/benching worksurfaces for teaming environments.

The need for meeting space will never disappear, but the way people meet is changing. Tec offers a wide variety of meeting tables for large groups, private offices, collaborative areas or brainstorming.
